

# What is **IASC**?

*...and what can it do for me?*

**The International Arctic Science Committee encourages and facilitates cooperation in all aspects of Arctic research, in all countries engaged in Arctic research, and in all areas of the Arctic region in order to foster a greater scientific understanding of the Arctic region and its role in the Earth system.**

## IASC Connects Arctic Scientists

- ...to the international Arctic research community by convening the annual Arctic Science Summit Week
- ...to each other across disciplines (physical/natural/social sciences) **and 23 countries** through scientific Working Groups
- ...to the Arctic policy community by contributing to the work of the Arctic Council as an Observer
- IASC **promotes inclusion** and more balanced participation in the Arctic science community.

## IASC Facilitates Arctic Research

- IASC Working Groups provide funds annually for science facilitation and coordination.
- Working Group **funds are available to support relevant projects** via an open application process.
- Up to 15.000€ for sponsoring small, targeted meetings, workshops, and other projects

## IASC Supports Early Career Researchers

- **More than 40% of IASC scientific funds** support early career researchers.
- **Annual Fellowship Program** sponsors ECR to learn from and contribute to international Arctic science coordination
- **Partner** with APECS & UArctic to provide more opportunities for ECR
