

Meaningful Multi-disciplinarity and the Governance of Evolving Global Dynamics in the Arctic

Dr. Justiina Dahl

Postdoctoral Researcher / 2016 IASC Fellow,
SHWG

Division of History of Science, Technology and
Environment

IX International Congress of Arctic Social Sciences
Umeå, 11.06.2017

Two sessions:

- 1) **Rountable:** Exploring the Usefulness of the Notion of ‘Boundary Objects’ in Arctic Social and Political Sciences
- 2) **Workshop:** Using the notion of “boundary objects” as a passage point in cooperation and coordination between different social worlds (13-14.30)

First Session Structure:

- Introduction to “Boundary objects”
- Four 8-minute-talks
- Roundtable
- Q&A
- Last comments: What to take into consideration when presenting to different audiences

Second Session structure:

- Broader disciplinary context of the analysis of boundary objects
- Boundary object – theory and method
- Exercises
